Respectfully submitted,

ROWENA DUNHAM, Clerk

ANNUAL REPORT OF
PUBLIC HEALTH NURSING SERVICES
GREENWOOD — 1960

Public health, in simple terms, is the sum total of the health of individuals and families living in a community. An organized program for public health is one that offers those individuals and families every possible chance of living and enjoying life, free from the handicaps of preventable disease and disability. In more formal terms, the objective of a public health program is to bring to all the people the benefits of modern medical and related sciences including the care and rehabilitation of the sick and disabled, the promotion of healthful living, and the prevention and control of disease.

A number of people are involved in the attaining of this objective. All together they make up a "health team". The public health nurse is an essential member of this team. She shares in planning and action with other workers in the fields of health, education, and welfare; with physicians, hospitals, clinics; with school personnel; with citizen groups. One of her important functions is coordination with the others involved to provide public health services to individuals, families, and community. Citizens of the community are also essential members of the health team. Alert to the health needs of their community, taking their share of responsibility to meet these needs, their contribution as health workers is indispensable to the effectiveness of the public health program. A vital, dynamic, working "health team" in the local community strengthens the public health not only of that community but also of the State and the Nation.

A summary of public health nursing services to your town is as follows:

Number	Clinics	Attendance
2	Polio Immunizations (School)	117
2	Polio Immunizations (Adult)	71
2	Tetanus Immunizations (School)	54
	Small-pox Vaccinations (School)	35
3	Child Health Conferences	61
2	School Physicals	77

Over one hundred and twenty visits were made to, or in behalf of, families receiving public health services.

I wish to thank all the committees who have made these services possible.

Respectfully submitted,

VELMA M. SPENCER, R. N.

Public Health Nurse

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Greenwood:

It is with pleasure that I submit my first annual report as Superintendent of Schools for the Town of Greenwood.

During recent months a primary concern of the town has been the condition of the Greenwood City school. The Capital Outlay Committee appointed at last Town Meeting has met frequently to find alternate solutions to the town's school housing problem. This committee has not only estimated cost of repairing The City School, but also studied the school housing problem for the entire town. Their recently published report indicates needs today and in the years ahead. Such effort by Greenwood citizens is commendable because it allows the town to better plan for school housing needs in the future.

The Capital Outlay Committee recommends a specific sum, under an article in this warrant, for repairing the City School. If this sum is not raised and appropriated, it will be necessary for the School Committee to request an appropriation to install a furnace according to state standards so that continued operation of the City School will be assured. Failure of the town to provide funds for a furnace at the school might make it necessary to close it.

Recently, the Ekco Corporation donated \$150.00 to the hot lunch program. Since the program has been discontinued, this amount has been added to last year's donation of \$150.00 and the sum deposited in the Bethel Savings Bank as a resource to partially finance a future kitchen facility or hot lunch program.

This year the School Committee recommends that Greenwood raise and appropriate annually a sum of money for a

school building fund. Present space available for housing school children, according to the Capital Outlay Report, will be inadequate in a few years if enrollments increase. Should Greenwood have to build additional classroom space, a school building fund would serve to reduce the amount of borrowing necessary or, perhaps, eliminate the need to borrow.

Greenwood citizens should also be alert to possible sources of state aid should any future building expenditures be made. At present the town is not eligible for capital outlay aid from the state.

School Committee Recommendations

RECOMMENDATIONS FOR SCHOOL CAPITAL OUTLAY IN THE TOWN OF GREENWOOD, MAINE

Foreword

The following report on the Greenwood Schools has been compiled by the Capital Outlay Committee appointed at the Town Meeting in 1960, the Greenwood School Board and the Superintendent of School Union No. 22. The report makes suggestions and recommendations based on a study of the Elementary School Buildings. The Committee hopes that you will be able to use it as a guide in making the best possible improvement of the school buildings so as to allow a better educational program in Greenwood—presently and for the future.

The following were instrumental in developing this report:

CAPITAL OUTLAY COMMITTEE

Mr. Leonas Holt — New Construction
 Mr. Mellen Kimball — Modernizing
 Mr. Owen Morgan — Modernizing
 Mrs. Raymond Swan — Transportation

GREENWOOD SCHOOL BOARD

Mr. Lester Bickford — Project Coordinator
 Mrs. Andrew Hawkins — Transportation
 Mr. Richard Melville — New Construction

SUPERINTENDENT SCHOOL UNION No. 22

Mr. Eric Sahlberg --- Guidance

We also wish to thank the Greenwood P. T. G. as well as all others who helped in this project.

Object

The object of the Capital Outlay Committee was to investigate all workable solutions to solve the school housing problems which face Greenwood today. These include pupils' health and safety, and meeting school standards set by the State.

The various following projects were undertaken by the Committee in an attempt to find the best solution to Greenwood's School Housing problems, now and in the future:

Past, Present and Future School Enrollment

- I Cost of Modernizing and Operation of Greenwood City School.
- II Cost of Modernizing, Addition of One Room, and Operation of Greenwood City School.
- III Cost of Combining All Greenwood Students in an Enlarged Locke Mills School.
- IV Cost of Providing a New Central School for All Greenwood Students.
- V Cost of Adding Two Rooms to Locke Mills School.

The findings of each project are shown on the following pages, and recommendations made.

Past, Present and Future School Enrollment

This was obtained for you to use as a guide in order to determine educational facilities needed for both now and in the future. By looking down the road, both ways, into the past and into the years to come, you can best plan Capital Outlay to eliminate needless repetitive spending and build a system which will be both adequate and flexible.

I — PRESENT CAPACITY:

A. Locke Mills School	Total — 88		
Primary Room	Inter. Room	Jr. High Room

Pre-School — Age 4 1 Student
Age 2 2 Students

Total	1955	— 4	1961	— 9
	56	— 4	62	— 9
	57	— 7	63	— 11
	58	— 8	64	— 10
	59	— 10	65	— 9
	60	— 8		

TOTAL TOWN ENROLLMENT

Year	1955	'56	'57	'58	'59	'60	'61	'62	'63	'64	'65
Total	109	115	110	106	113	120	120	116	124	129	125

D. The Enrollment Survey indicates that:

1. The Greenwood City enrollment exceeds the school's physical capacity of 28. As a result, it was necessary to send the 8th Grade students to West Paris on a tuition basis.
2. The Intermediate Room in Locke Mills will exceed by one its physical capacity of 30 next year. The Primary and Junior High room enrollments will exceed their capacities in 1963. The total school capacity will be exceeded in 1964.
3. The above enrollment figures are based on Greenwood's current school age population. Future enrollment may increase or decrease, depending on the population trend.

I — COST OF MODERNIZING CITY SCHOOL

If the Greenwood City School is to remain open, certain minimum requirements must be met in fire safety. The Committee also feels that basic modern sanitary facilities should be incorporated with these, and suggests the following:

1. Remove present pot type oil stove.
2. Provide a fire resistive furnace room below the area presently used for toilets.
3. Purchase and install a 140,000 BTU per hour furnace in this area. This will be adequate to heat the present building and any addition of 9000 cu. ft. or less.
4. Install one toilet for each sex in the area above the furnace room.
5. Provide a lavatory and drinking fountain in the space between the toilets and main classroom for both sexes.
6. Locate and pipe in tested and approved water.

COST ESTIMATES ON THE ABOVE SUGGESTIONS:

- | | |
|---|-----------|
| A. Sewerage, Closets, Lavatory, Drinking
Fountain and Plumbing | \$ 571.00 |
|---|-----------|

B. Furnace Room	390.00
C. Furnace installed with Accessories	875.00
D. Chimney	210.00
E. Toilet Room Alterations	120.00
F. Water Supply and Piping	339.00
G. Excavation	195.00

TOTAL CAPITAL OUTLAY	<u>\$2700.00</u>
----------------------	------------------

RESULTS:

- A. Small increase in operational costs.
- B. Provide a more comfortable school for both the teachers and students.
- C. Will not relieve the future housing shortage in the Locke Mills School.
- D. If only this plan is adopted, the Committee recommends that the school enrollment not exceed 23 students.

This possibly can be accomplished by sending Grade 8 or 7th and 8 to another school.

- E. Effect in operating costs:

*Tuition—1 student @ \$200.00	\$200.00
Transportation on 3 students	180.00
Miscellaneous	100.00

Total Increase	<u>\$480.00</u>
----------------	-----------------

*Increase of one over present 2 tuition students.

- F. Increase in average cost per Elementary Student from \$153.35 to \$157.00. State Average is \$202.00.

II — COST OF MODERNIZING, OPERATION AND ADDITION OF ONE ROOM TO GREENWOOD CITY SCHOOL

By referring to the School Enrollment and Capacity Section, you can see that the predicted average number of students in Greenwood City during the next 5 years will be 26. This is 3 in excess of the number recommended by the Committee, and in order to accommodate all Greenwood City pupils, an additional room would be needed. The average number of students in each room would be 13.

The costs of this project would be:

Previously proposed repairs and alterations on the present room	\$2,700.00
30x30 Addition @ \$11.00 per sq. ft.	9,900.00
TOTAL CAPITAL OUTLAY	\$12,600.00

RESULTS:

A. Increase in Operational Costs:

Teacher	\$3,500.00
Fuel	200.00
Janitors	100.00
Insurance	30.00
Supplies	100.00
Utilities	110.00
Building Maintenance	200.00

TOTAL INCREASE **\$4,240.00**

Less State Subsidy **\$1,349.00**

Less Tuition & Trans.

on 1 student **480.00 1,829.00**

NET INCREASE IN OPERATIONAL COSTS

\$2,411.00

- B. Allowing the teachers to spend more time on each student. Allow additional subjects to the curriculum, such as music, art or progressive reading study classes.
- C. Provide a more desirable school for obtaining good replacement teachers when necessary.
- D. Provide adequate space facilities for Greenwood City students for many years to come.
- E. Eliminate many of the disadvantages of a one-room school, as well as retain many of the good merits of a one-room school.
- F. Will not solve the future housing problem at Locke Mills nor alter the practice of sending the "Irish Neighborhood" students to Bethel on tuition.
- G. Increase the average cost per Elementary Pupil from \$153.35 to \$173.50. State Average is \$202.00.

III — COST OF COMBINING ALL GREENWOOD STUDENTS IN AN ENLARGED LOCKE MILLS SCHOOL

If a plan to enlarge the present Locke Mills School were adopted, Greenwood would have one school with a capacity of handling 135 Greenwood students. It would entail an addition of two classrooms and a multi-purpose room consisting of teachers' room, lunch room and kitchen. Extra sanitary facilities would also be required.

Additional playground area would also be required to accommodate a total of approximately 135 students as compared to 82 now.

The Committee feels at this time it would be advantageous to allow the Irish Neighborhood students to continue attending Bethel schools on a tuition basis.

Transportation could be accomplished by the use of a Town-Owned Bus* of 50 passenger capacity, which would carry students from Greenwood City to Lockes. A small contract bus could be utilized to transport sub-primary students to home at noon.

The costs of this project would be:

Construction cost of a 3-room addition	
of 900 sq. ft. each @ \$12.00 =	\$32,400.00
Complete with furnishings	
including kitchen and lunch room.	
Cost of 50 Passenger Bus =	6,000.00
Additional Playground Area and Equipment	700.00
	<hr/>
TOTAL CAPITAL OUTLAY	\$39,100.00

*Average state conveyance costs for 50 passenger municipally owned buses is less than for contract buses.

RESULTS:

A. Increase in Operational Costs:

Teacher	\$3,500.00
Fuel	750.00
Janitors	900.00
Insurance	100.00

Supplies	125.00
Utilities	250.00
Building Maintenance	350.00
Transportation	1,205.00
<hr/>	
TOTAL INCREASE	\$7,180.00
Less Tuition and Trans.	
Costs on 1 student	\$480.00
Less State Subsidy	2,490.00 2,970.00
<hr/>	
NET INCREASE IN OPERATIONAL COSTS	\$4,210.00

- B. This would make it possible to have fewer grades per room and reduce the number of students from present average of 29 per room to 22 students per room. This also would provide a more flexible method of class combinations.
- C. Provide a more desirable school for obtaining replacement teachers when required.
- D. Provide adequate space for Greenwood students until 1980 at the present rate of increase.
- E. Eliminate all the disadvantages of a one-room school.
- F. Increase the average cost per student from \$153.35 to \$190.00. State Average is \$202.00.
- G. Would incorporate facilities for Hot Lunch Program.
- H. A contract bus would be used to pick up students in Greenwood City and transfer them to the town bus.

IV — COST OF PROVIDING A NEW CENTRAL SCHOOL FOR ALL GREENWOOD STUDENTS

If Greenwood were to build a new school, it should have a capacity of handling 135 to 150 students.

It would require purchase of 6 to 7 acres of land located in the center of population, providing adequate drainage

and safe access by conveyed and walking students. Preferably, this would be in the Locke Mills area.

The new school should be a one-story fire resistive building. It should consist of five classrooms, a multi-purpose room (teachers' room, lunch room, kitchen) and basement storage area.

Transportation would be accomplished in the same manner as outlined in solution Number III (Enlarged Locke Mills School).

The costs of this project would be:

Construction costs based on averages	
by the State of a new school	
5400 sq. ft. @ \$12.00 =	\$64,800.00
Cost of 50 Passenger Bus	6,000.00
Cost of Land -- Undeterminable	—
New Furnishings at additional cost	—
	<hr/>
TOTAL CAPITAL OUTLAY	\$70,800.00

RESULTS:

A. Increase in Operational Costs:

Teacher	\$3,500.00
Fuel	200.00
Janitors	1,000.00
Insurance	275.00
Supplies	125.00
Utilities	250.00
Building Maintenance	350.00
Transportation	1,205.00
	<hr/>
TOTAL INCREASE	\$6,905.00
Less Tuition on 1 student	\$480.00
Less State Subsidy	2,362.00
	<hr/>
NET INCREASE	\$4,063.00

- B. This would give you all the advantages shown in Solution III. — Eliminate increasing repair costs on present building. Provide a new fire resistive building.

- C. In addition to this, safe ample playground space would be provided.
- D. Also provide space for future expansion.
- E. Increase average cost per Elementary Student from \$153.35 to \$184.50. State Average is \$202.00.

V — COST OF ADDING TWO ROOMS TO LOCKE MILLS SCHOOL

If this plan was adopted, you would retain the Greenwood City School and provide adequate space for an enrollment of 108 in the Locke Mills School. It would consist of the addition of one classroom and a multi-purpose room (which would be a teachers' room, lunch room and kitchen). Extra sanitary facilities would also be required.

The costs of this project would be:

Construction costs of a 2-Room Addition	
of 900 sq. ft. each @ \$12.00 =	\$21,600.00
Addition—Playground Area and Equipment	700.00
	<hr/>
TOTAL CAPITAL OUTLAY	\$22,300.00

RESULTS:

A. Increase in Operational Costs:

Teacher	\$3,500.00
Fuel	500.00
Janitor	600.00
Insurance	66.00
Supplies	82.00
Utilities	166.00
Building Maintenance	232.00
	<hr/>
TOTAL INCREASE	\$5,146.00
Less State Subsidy	1,955.00
	<hr/>
NET INCREASE IN OPERATIONAL COSTS	\$3,191.00

- B. This would make it possible to have fewer grades per room and reduce the number of students from present average of 29 to 21 in each room.

- C. Provide adequate space for Locke Mills students to 1980 at the present rate of increase.
- D. Increase the average cost per student from \$153.35 to \$180.00. State Average is \$202.00.
- E. Would incorporate facilities for a Hot Lunch Program for Locke Mills students.
- F. Would not eliminate the necessity of improvements at Greenwood City.

CONCLUSIONS

The Committee feels that:

- 1. The Greenwood City School must be modernized to meet minimum State requirements, if operation is continued.
- 2. Serious consideration should be given to the fact that within 3 years at least 2 of the classrooms in the Locke Mills School will be of insufficient size to accommodate the number of students attending.
- 3. Greenwood is faced with the problem of Capital Outlay expenditures:
 - A. For additional classrooms in Locke Mills.
 - B. To meet State safety requirements in Greenwood City.
- 4. Solution to these problems should be adopted now.

EFFECTS OF FOLLOWING ONE OR MORE OF THE ALTERNATE SOLUTIONS

- A. Modernizing Greenwood City School.
Would not solve the future Locke Mills problem.
If this were followed, a two-room addition (Solution V) would subsequently also be necessary at Locke Mills.
- B. Modernizing and Adding to Greenwood City School.
This still would not remedy the future Locke Mills problem as an addition would also be required in Locke Mills.

- C. Combining all Students in an Enlarged Locke Mills School. This will solve the problems of housing Greenwood pupils.
- D. Provide a New Central School at Locke Mills. This will best solve the problems by providing adequate space inside and out and eliminating building needs or extensive repairs for 20 years.
- E. Adding 1 Class Room and a Multi-Purpose Room at Locke Mills. (Solution V). This would not solve the problem as modernizing would still be required at Greenwood City.

COMMITTEE RECOMMENDATIONS

The Committee has also investigated the possibility of re-opening the Tubbs School. The building is too small, playground inadequate, and it has no central heating system or sanitary facilities. The capital outlay required to install an approved heating system, insulation, sanitary facilities and necessary repairs to the building would be prohibitive, as well as not solving the problems in Greenwood City and Locke Mills.

This Committee suggests that Greenwood modernize the Greenwood City School building, as recommended in Solution I of this report, and raise a sum of \$2200.00 to be added to the \$500.00 raised in 1960 to cover costs of this project.

We further recommend that a sum of \$3500.00 be raised each year and be held for future Greenwood School Building needs, and that the interest accrued be applied toward the principal.

1300

WARRANT FOR TOWN MEETING

To Jason R. Bennett, a Constable in the Town of Greenwood, in the County of Oxford, Greeting:

In the name of the State of Maine, you are hereby directed to notify and warn the inhabitants of the Town of Greenwood, qualified by law to vote in said town to meet at Town Hall, at Lockes Mills Village, in said town, on Monday the 6th day of March, 1961, at 7 o'clock in the evening to act on the following articles, to wit:

Art. 1. To choose a moderator to preside at said meeting.

Art. 2. To choose a town clerk for the ensuing year.

Art. 3. To see if the town will vote to accept the reports of the municipal officers for the year 1960.

Art. 4. To choose selectmen, assessors, and overseers of the poor for the ensuing year.

Art. 5. To see what sum of money the town will vote to pay the selectmen, assessors, and overseers of the poor for the ensuing year.

Art. 6. To choose a town treasurer for the ensuing year.

Art. 7. To elect a road commissioner or commissioners, and fix their pay.

Art. 8. To elect one member of the school committee for three years, and all other necessary town officers for the ensuing year.

Art. 9. To see what sum of money the town will vote to raise and appropriate for the following accounts:

1. School maintenance \$29230
2. Capital outlay \$1300 for deposit

Art. 10. To see if the town will vote to pay the members of the school committee for their services for the year 1960 \$25.00

Art. 11. To see if the town will vote to raise the sum of \$25.00 for public health nursing in Greenwood, said sum to be expended by the State Bureau of Health for Local services. *\$25.00*

Art. 12. To see if the town will vote to close the Tubbs District School. *closed*

Art. 13. To see what sum the town will raise and appropriate for State Aid Road construction (in addition to the amounts regularly raised for the care of ways, highways and bridges) under the provisions of Sections 44, 49 or 50, Chap. 23, R. S. 1954, as amended.

Art. 14. To see what sum the town will vote to raise and appropriate for winter roads, snow removal, sanding, etc.

Art. 15. To see what sum the town will vote to raise and appropriate for summer roads and bridges.

Art. 16. To see what sum per hour the town will vote to pay men, trucks, teams and tractors for labor on the town roads.

Art. 17. To see what sum the town will vote to raise and appropriate for tarring roads.

Art. 18. To see what sum of money the town will vote to raise and appropriate for cutting bushes along the town highways.

Art. 19. To see what sum of money the town will vote to raise and appropriate for the payment of interest.

Art. 20. To see what sum of money the town will vote to raise and appropriate for town officers' salaries and miscellaneous expenses.

Art. 21. To see what sum of money the town will vote to raise and appropriate for the support of the town poor.

Art. 22. To see what sum of money the town will vote to raise and appropriate for Memorial Day observance.

Art. 23. To see what sum of money the town will vote to raise and appropriate for the support of traffic beacon and street lights.

Art. 24. To see what sum of money the town will vote to raise and appropriate for Aid to Dependent Children (Mother's Aid).

Art. 25. To see if the town will vote to buy the Treasurer's and Tax Collector's bonds.

Art. 26. To see if the town will vote to authorize the selectmen to insure the town equipment against property damage and personal liability.

Art. 27. To see if the town will vote to authorize the selectmen and treasurer to procure temporary loans in anticipation of taxes for the purpose of paying obligations of the town; such loans to be paid during current municipal year out of monies raised during said year by taxes, and loans not exceed in aggregate \$18,000.

Art. 28. To see if the town will vote to authorize the selectmen and treasurer to sell such real estate acquired by tax liens as they may deem advisable for the best interest of the town and convey the same by quit-claim deed. Such real estate to be advertised for thirty days.

Art. 29. To see what sum of money the town will vote to raise and appropriate for town hall expenses for 1961.

Art. 30. To see what sum of money the town will vote to raise and appropriate for additional improvement to the town hall.

Art. 31. To see if the town will vote to raise and appropriate the sum of \$50.00 to be paid to the State of Maine Publicity Bureau to be expended and used for advertising the natural resources and attractions of the State of Maine.

Art. 32. To see what sum of money the town will vote to raise and appropriate for clearing and improving old cemeteries.

Art. 33. To see what sum of money the town will vote to raise and appropriate for its share of Social Security benefits for its employees.

Art. 34. To see what sum of money the town will vote to raise and appropriate for carrying on a Dutch Elm Disease Prevention Program as recommended by the State of Maine Forest Service, for the purpose of protecting elm shade trees. Two dollars per tree recommended by the Maine Forest Service.

Art. 35. To see what sum of money the town will vote to raise and appropriate for the support of the town dump, and take such action as may be necessary to regulate the use of the dump.

Art. 36. To see if the town will vote to raise and appropriate a sum of money for Civil Defense and Public Safety, and to pay expenses of Local Civil Defense Directors.

Art. 37. To see if the town will vote to raise and appropriate the sum of \$1,000.00 to pay the truck note due December 31, 1961.

Art. 38. To see if the town will vote to appropriate the sum of \$400.00 to cooperate with the Maine Forest Service and Federal Government in control of white pine blister rust, in accordance with Revised Statutes, Chap. 36, Section 69.
